

American HealthTech Offers COVID-19 Toolkit Free of Charge to All Customers

May 6, 2020

MOBILE, Ala.--(BUSINESS WIRE)--May 6, 2020-- American HealthTech (AHT), a wholly owned subsidiary of CPSI (NASDAQ: CPSI) and a leading provider of electronic health records (EHR) for the post-acute care and senior living markets, today announced the availability of the CPSI COVID-19 Toolkit to all AHT customers. The toolkit was created in partnership with QliqSOFT, a technology innovation firm, and designed to help alleviate the strain providers are facing due to the impact of COVID-19 on healthcare delivery.

Available free of cost to all AHT clients, the CPSI COVID-19 Toolkit is designed to provide healthcare providers and their clinicians with tools to safely and proactively engage with their residents and staff in response to COVID-19. This solution offers remote care options for providers via video chat and secure texting tools so they can continue to address the ongoing care needs of residents amidst the lockdown protocol in place for skilled nursing facilities. Video chat tools are also included in the solution to allow residents the opportunity to stay virtually connected to their families.

MS Care Center of Alcorn County, part of the Oxford Healthcare Management, piloted the CPSI COVID-19 Toolkit and the impact has been extremely positive. According to Tonya Eubanks, president of Oxford Healthcare Management, "The COVID-19 Toolkit allows our residents to have their routine healthcare appointments without journeying to different doctors' offices for each need. This solution also allows the resident to stay on their appointment schedule as needed in light of current in-person visit restrictions."

Rob Skelton, administrator for MS Care Center of Alcorn County, agreed. "Our residents have not been out of our facility for appointments since March 13th. The CPSI COVID-19 Toolkit allows them to stay at our facility and still see their doctors — no extreme weather, no travel challenges and most importantly, we can reduce their exposure to COVID-19."

"Our immediate priority is to help healthcare providers address this health crisis as safely and efficiently as possible," said Boyd Douglas, president and chief executive officer of CPSI. "Partnering with QliqSOFT to make these COVID-19 tools available quickly and free of cost made a lot of sense for everyone."

About CPSI

CPSI is a leading provider of healthcare solutions and services for community hospitals, their clinics and post-acute care facilities. Founded in 1979, CPSI is the parent of four companies – Evident, LLC, American HealthTech, Inc., TruBridge, LLC and iNetXperts, Corp. d/b/a Get Real Health. Our combined companies are focused on helping improve the health of the communities we serve, connecting communities for a better patient care experience, and improving the financial operations of our customers. Evident provides comprehensive EHR solutions for community hospitals and their affiliated clinics. American HealthTech is one of the nation's largest providers of EHR solutions and services for post-acute care facilities. TruBridge focuses on providing business, consulting and managed IT services, along with its complete RCM solution for all care settings. Get Real Health focuses on solutions aimed at improving patient engagement for individuals and healthcare providers. For more information, visit www.cpsi.com.
