TruCode Exhibiting at AHIMA Under New Name, Showcasing Their Cloud-Based Medical Coding Technology, TruBridge Encoder

MOBILE, Ala.--(BUSINESS WIRE)-- TruBridge, LLC, a subsidiary of CPSI (NASDAQ: CPSI), which offers an end-to-end revenue cycle management (RCM) solution to help streamline revenue functions, enhance productivity, and support the financial health of healthcare organizations, is pleased to announce the full integration of TruCode under the TruBridge brand. Now branded TruBridge Encoder, the medical coding technology can be offered along with TruBridge medical coding services. The consolidated services and technologies further strengthen the ability for TruBridge to provide top-tier financial health solutions to clients, and the integration will result in a more unified client experience, making it easier for clients to access the comprehensive suite of products and services TruBridge offers.

"This combination marks a significant milestone in our journey to empower healthcare organizations to enhance their financial health and was designed to create a more streamlined and efficient experience for clients, ensuring they have access to an even broader range of financial health solutions," said Pat Murphy, General Manager at TruBridge. "The TruBridge Medical Coding solutions will enable us to better serve our clients, who can expect the same high level of expertise, support, and innovation they have come to associate with the TruCode name."

TruBridge Encoder, formally known as TruCode, is a market-leading software solution that enables healthcare providers, auditors, consultants, and payors to code more accurately and efficiently and help improve overall financial performance. TruCode has delivered medical coding expertise and customer satisfaction to the health information market for nearly 20 years. Since May 2021, TruCode technology has been bundled with TruBridge medical coding services and their other RCM solutions to enhance revenue cycle performance for healthcare organizations of all sizes. This final phase of brand integration represents the strategic alignment of a suite of TruBridge services and solutions, which help eliminate inefficiency in the hospital revenue cycle.

To learn more about TruBridge medical coding solutions, TruBridge will be exhibiting at AHIMA **at Booth #711, October 8-10, 2023**, at the Baltimore Convention Center in Baltimore, Maryland. Murphy and Lindsey Hall are presenting a session titled, "Better, Faster, Stronger: Building a Workforce Strategy with a Human-centered, Tech-focused Approach" on **October 10 at 1:00 p.m.**

About TruBridge

TruBridge understands that many things can get in the way of providing great patient care. For more than 30 years, we have helped healthcare organizations of all sizes clear the way for care through a portfolio of industry-leading RCM products and services.

We do not deal in “one-size-fits-all” solutions. We act as a trusted partner, working alongside you to craft a custom plan that’s perfectly tailored to your unique needs. The results tend to speak for themselves: On average, our customers experience a 24 percent decrease in A/R days, 37 percent increase in net cash collections, 97 percent first-pass clean claim rate, and 13 percent increase in cash.

With solutions like our Peer Reviewed by HFMA Complete Business Office, TruBridge RCM product suite, and now with our deep expertise in medical coding technology, we can help boost productivity, increase cash flow, speed reimbursement, and free up more time and staff for the things that matter most to our healthcare clients: their patients. For more information, please visit www.trubridge.com.

About CPSI

CPSI has more than four decades of experience in connecting providers, patients, and communities with innovative solutions that support both the clinical and financial side of healthcare delivery. We provide business, consulting, and managed information technology (IT) services, including our industry-leading HFMA Peer Reviewed® suite of revenue cycle management (RCM) offerings, to help streamline day-to-day revenue functions, enhance productivity, and support the financial health of healthcare organizations. Our patient engagement solutions provide patients and providers with the critical information and tools they need to share existing clinical data and analytics that support value-based care, improve outcomes, and increase patient satisfaction. We support efficient patient care across an expansive base of community hospitals and post-acute care facilities with electronic health record (EHR) product offerings that successfully integrate data between care settings. We make healthcare accessible through data-driven insights that deliver workflow efficiencies and remove distractions. Our solutions allow our clients to achieve better decisions and results while keeping patients at the center of care. We are a healthcare solutions company. We clear the way for care.
