Computer Programs and Systems, Inc. to Broadcast Its Fourth Quarter and Year-End 2013 Conference Call Live on the Internet

MOBILE, Ala.--(BUSINESS WIRE)-- Computer Programs and Systems, Inc. (NASDAQ: CPSI), a leading provider of healthcare information solutions, today announced that it will provide an online Web simulcast of its fourth quarter and year-end 2013 earnings conference call on Friday, January 31, 2014. The Company's results for the fourth quarter and year ended December 31, 2013, will be released after the close of the market on Thursday, January 30, 2014.

The live broadcast of CPSI's conference call will begin at 9:00 a.m. Eastern Time on Friday, January 31, 2014. A 30-day online replay will be available approximately an hour following the conclusion of the live broadcast. A link to these events can be found on the Company's website at www.cpsi.com.

About Computer Programs and Systems, Inc. (CPSI)

CPSI is a leading provider of electronic health records systems for more than 650 community, rural and critical access hospitals and their 12,000 providers. Founded in 1979, the Company is dedicated to meeting the ever-changing needs of health IT, while optimizing the quality of care for communities in 45 states and the District of Columbia. CPSI provides a complete information and patient care system from business office to bedside combined with comprehensive implementation, training and ongoing support from our staff of more than 1,400 healthcare and business professionals. CPSI's wholly owned subsidiary, [TruBridge](http://www.trubridge.net), focuses exclusively on providing business office, consulting and managed IT services to rural and community healthcare organizations, regardless of their IT vendor.
